Sir:

REPLY TO THE SECOND RESTRICTION/ELECTION REQUIREMENT

This is a Reply to the December 8, 2009 Restriction Requirement for the above-identified patent application. In the document, the examiner requires the Applicant to elect several species for examination purposes.

The Applicant hereby elects the following species for examination purposes:

- The species of analyzer of claim 18 having components representative of both local and global features across said channels.
- The species of analysis system of claim 15 that selects channels with the most frequently occurring non-zero number of spikes.

This species election is made with traverse. The Application further asks the examiner to withdraw the election requirement should a generic claim encompassing the elected species be held to be allowable.
